Professional Summary

Motivated Diploma in Computer Engineering student with hands-on experience in business operations, customer handling, and fast-paced work environments. Skilled in communication, teamwork, problem-solving, and computer fundamentals. Quick learner with strong adaptability and interest in technology and backend operations.

Education

- SSC - CBSE Board - 76.40% (Completed in 2024)
- Diploma in Computer Engineering — Expected Graduation: 2027

Experience

I had been doing side hustles to understand the market and grab some actual experience and knowledge about different fields.

- Having managed my own printing business, I have hands-on experience in every aspect of running a business, including operations, client handling, marketing, finance, sales and management.
- Worked in fast-paced food service operations, gaining experience in customer service and team coordination.
- Worked in quick-commerce operations handling backend and inventory processes.
